FOR IMMEDIATE RELEASE

Florida State Representative Stan McClain receives Building Owner and Managers Association of Florida's Legislator of the Year Award

Orlando, Florida, December 18, 2023 – The Building Owners and Managers Association of Florida (BOMA Florida) announces the recipient of its distinguished Legislator of the Year Award to the Honorable Florida State Representative Stan McClain (R), who represents Florida District 27 (parts of Lake, Marion, and Volusia Counties).

Representative McClain has been integral in the Commercial Real Estate (CRE) industry's efforts to advocate for the reduction of sales tax on commercial leases. CRE in Florida has been at a competitive disadvantage while being the only state in the country with such a tax.

As Chair of the Ways and Means Committee, McClain has turned the industry's advocacy into his own efforts and enacted action.

McClain's efforts culminated in the lowering of the sales tax this year and to further decrease in 2024.

BOMA Florida extends our heartfelt congratulations to him for advocating on behalf of all commercial real estate professionals in the state of Florida.

###

The Building Owners and Managers Association of Florida (BOMA Florida) is a powerful commercial real estate association with six local chapters serving 1,100+ members in the state of Florida. BOMA Florida contributes to advocacy efforts, including regulatory, legislative, and judicial proceedings, in order to help commercial real estate owners and managers save money, create jobs, and set standards within our buildings. BOMA Florida stays connected and influential at the local, state, and national levels with our work on advocacy, sustainability, and best practices.
